About The Teachers

Andrea Fullington and Ryk Groetchen are both passionate teachers who have been working with infants and preschoolers and their parents in Music Together® classes since 2002. Our shared commitment to our music and our families has led us to want to offer continuing education opportunities for kids that have grown up in Music Together® classes and are now entering school age. We believe that the Orff experience, which emphasizes joyful play and imaginative exploration of musical language and tools, is an excellent next step, and an ideal learning environment for these kids.

About Orff-Schulwerk

Orff-Schulwerk is an approach to learning music and movement that weaves together speech and poetry, movement and dance, drama and song, improvisation and playing musical instruments. Orff begins with what is natural to a child: playground chants and clapping games, folk songs and dances and nursery rhymes. In this way, children learn music as they do language, by listening and imitating, directly experiencing, feeling and moving the music before conceptualizing it. The children will use all of the tools we explore to create their own compositions and musical fun!

Orff Ensemble

for ages 4 - 8 yrs (youngest are in pre-school)

This class is crafted to be inclusive of children of mixed ages. We will play games, tell stories, do folk dances and improvise movement, rhythm and melody. In addition we will focus our energies and apply our skills to building our own musical creations. The children will be encouraged to explore their own ideas and work together to construct musical pieces that include dancing, singing, theater, percussion and melodies. Classroom activities are adaptable to be simpler or more complex to meet the skill level of the participant, be they 4, 8 or 48.

Rates

Classes are \$130 for a 10-week session. For families with more than one child, the sibling fee is \$70.
